

Top 10 Benefits of the Omnum1 PEMF System

OMNUM1
INTELLIGENT LIFESTYLE

1. Very affordable!

The Omnium1 is the least expensive and most modern full size PEMF system for home use: Android-based touch tablet with control software, a foldable whole body mat applicator, a pillow/cushion applicator and an intelligent D/A converter for the accurate generation of the defined frequency patterns and magnetic field intensities. A high-capacity battery guarantees about 4-5 hours of continuous use of the PEMF system with the whole body applicator at high intensity. Optionally available at an extra charge are the brainwave stimulation system Omnibrain and the intensive applicator OmniSpot!

2. Very portable!

The Omnium1 is very compact, while offering all the benefits and functions of a stationary PEMF system. Identical components of a stationary PEMF system and at the same time easy to transport.

3. Future oriented!

In comparison to stand-alone PEMF systems, the Omnum1 PEMF system is very flexible and designed for future upgrades and enhancements without additional investment in hardware. FREE Update function via enabled WIFI!

4. Very powerful!

Built-in high performance battery with over 9000mA/h. Electricity-independent continuous operation over a long period is now for the first time possible with a PEMF full body system. This feature is unique in the world!

5. PEMF to GO!

Local applicators feature a variety of applications thanks to the supplied Velcro straps. OmniPad and OmniSpot are designed specifically for use On The Go and do offer all advantages of a stationary system, including built-in, non-insulated, solid copper coils. With the help of supplied Velcro straps, Omnum1 allows hands-free

PEMF applications, for example, at the office, while watching TV, in the car, on the train, on the plane, during lunch, on the boat, in the motorhome, at the beach, in your back yard and at the sports field or arena - literally at almost every occasion!

6. Very efficient!

OmniSpot is a full-fledged Helmholtz-applicator. The physically described Helmholtz effect ensures a homogeneous magnetic field in the exact center of the two opposing magnetic field coils. OmniSpot uses this effect and provides a uniform magnetic field - with virtually no loss of efficiency in the center of the two coils applied!

7. Very versatile!

Omnium1 is the world's only compact PEMF system with two different waveforms, depending on the applicator used: Full body applicator produces the so-called triple-saw tooth waveform which achieves - due to the extremely fast rise and fall times of the pulsating magnetic field and the frequency diversity - the best and most efficient resonance potentials for the user, while at the same time preventing the well-known «fatigue» effect of a very simple waveform (such as sine waves) or static magnets. Both local applicators, OmniPad and OmniSpot, produce a square wave pattern, which has also been found by NASA to be extraordinarily efficient based on their large and meaningful landmark study.

8. Combinable with Brain Wave Stimulation!

The Omnium1 is the world's first compact PEMF system, which simultaneously allows magnetic field application AND Brainwave Entrainment - controlled by one and the same W@pp! Omnibrain expands the Omnium1 system to the possibility of using specific light, color and sound frequencies to stimulate the brain to increase and optimize the holistic wellness effect during each application.

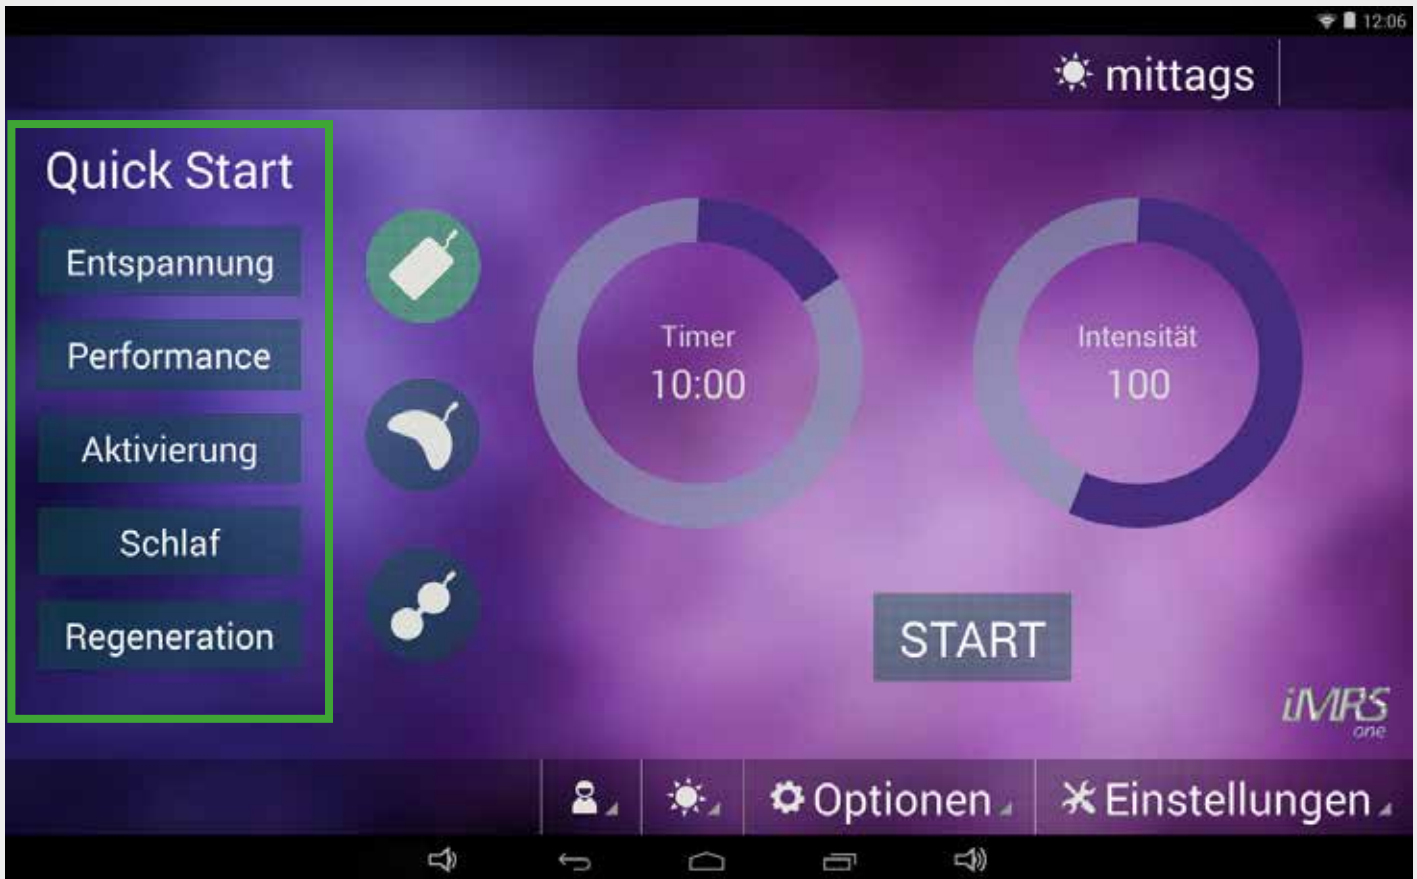

9. Built-in organ clock!

The built-in organ clock automatically regulates the applied frequency pattern depending on what time of day or night the user performs a whole body application. With only 3 simple taps on the touch screen (application time, intensity and start button) a PEMF application can be started immediately.

10. Very easy to use!

Omnium1 features 5 pre-installed quick-start programs, which can be activated immediately and without prior knowledge by simply touching the designated button. I.e. before sports or for quick regeneration afterwards, for relaxation, for activating and increasing your body's energy levels or to prepare for deep relaxation and sleep, simply press the respective button and the selected program starts itself!

The Android-based Omnimium1 PEMF system - unbeatable value for your money, innovative, safe, efficient, unique, incomparable and only available through Swiss Bionic Solutions!!!!
