## Update the iMRS prime firmware

1. Unzip and copy the 4 .wim files on an empty USB stick

Name		^	Änderungsdatum				
iMRS_prime_V	-data.wim		29.01.2020, 12:30				
iMRS_prime_V	-efiesp.wim		29.01.2020, 12:30				
iMRS_prime_V	-mainos.wim		29.01.2020, 12:31				
iMRS_prime_V	-winpe.wim		04.09.2019, 13:56				

- 2. Start the iMRS prime control unit and click "Start" after booting.
- 3. Insert the USB stick into one of the USB sockets of the iMRS prime control unit.

**4.** Under Settings (wheel symbol in the main menu), select "System information" and then select "System update".

IMPORTANT NOTE: During the update process the iMRS prime display will change multiple times while extracting and uploading the necessary files. Please do not touch the device/ display and do not interrupt the process until the display will show you again the start screen (with the contraindications). The process will take at least 10-15 Minutes!
